About the project

GreenACT is a 20 months project designed to enhance ENVIRONMENTAL EDUCATION and AWARENESS of YOUNG PEOPLE through the organisation of SUMMER SCHOOL PROGRAMME to familiarize young people with the idea of environmental citizenship, based on the fact that the future depends on each and one of us by acting responsibly and positively towards our environment and developing sustainable solutions for addressing environmental challenges.

The Intellectual Outputs of the Project

- COMPETENCE FRAMEWORK (IO1)
- EDUCATIONAL PACK for young people (IO2)
- PLATFORM (IO3)
- READY TO USE TOOLBOX (IO4)

01

IO1 Conceptual framework

Designed to increase the environmental awareness and responsible behaviour of youngsters. Has the aim to acquire specific knowledge and targeted skills addressed to young people, using questionaries assesing young people knowledge and desk research on specific topics related to environmental policies. The information is used as a basis for the design of the Education pack in IO2

02

IO2 Educational pack

Based on the findings and comparative report of the previous output and dedicated to support youth workers and organisations promoting Eco-citizenship. Consist of two parts:

- **educational modules** to enhance environmental awareness and promote eco-citizenship targeting young people

- **data bank** consist of teaching materials, tools, activities, videos, reports and other resources helpful in implementing the learning modules provided.

03

IO3 The Platform

An online platform to provide young people and youth workers with a powerful, dynamic and interactive tool based on cutting edge technology. Developed using open source technologies in order to be easily maintainable, transferable, extensible and adaptable to other contexts.

04

IO4 Ready to use Toolbox

Dedicated to:

- Schools
- Youth organization
- Educational Centers

Consist of templates and guidelines how to implement the SUMMER SCHOOL program. You will find icebreakers and team building excersises, practical tips and monitoring tools, good practices from similar projects to get inspired from! Including vast choice of practical video tutorials about recycling and upcycling to use in everyday life, in a group and individualy.
